

Exploring special numbers

1, 2, 3, 4

An even number can be made into partners.

6

An odd number always has one left over after making partners.

15

One left over.

1 Make the partner patterns for these.

12

8

14

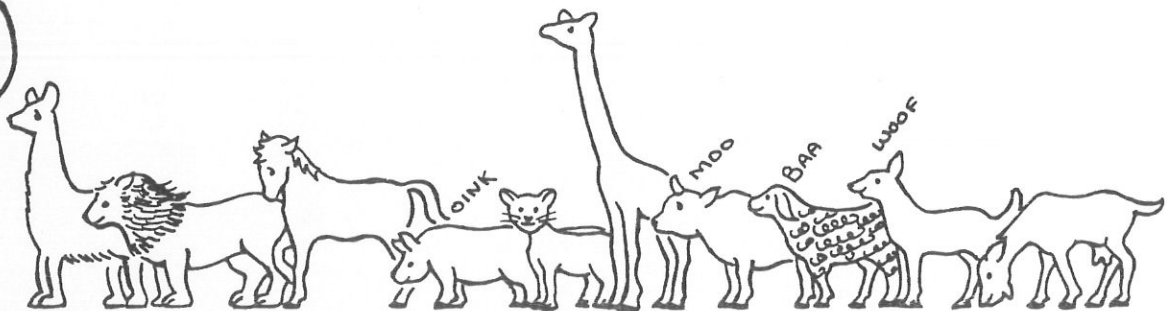

2 Show if these are odd numbers.

9

7

17

Ordinal numbers show us the order of things. We write them in a special way.

1st 2nd 3rd 4th 5th 6th 7th 8th 9th 10th

3 Write the word that is missing in each sentence.

The lion is in line. The animal in the line is the sheep.

The cow is and the dog is
